He and Browne Begin to Address a Large Crowd, but the Residents Quickly Stop Them-The Neighborhood Greatly Aroused by the Presence of the Commonwealers.

The little town of Hyattsville and vicinity was much excited last night as a result of the ent of the Coxey band on the farm recently proffered for their use. As soon as the citizens were aware that the commonwealers nad camped in their neighborhood an indignation meeting was called at the town hall.

There was a large response to the call, and the general sentiment was for protection against any advances from the campers, and denunciation for Mr. J. H. Rogers, who had given his land up for such uses. Mr. F. H. Smith was elected to the chair and Mr. John Lepper made secretary.

As Dr. Wells, who had called the meeting to order, was stating the object of the meeting the voice of Mr. Coxey was heard from the outside. He tried to make an address.

Dr. J. B. Oirens, Mr. L. B. Habercomb, and Mr. H. O. Emmons were appointed a committee to suppress Mr. Coxey. The committee performed its work in an effective manner.

Carl Browne, however, was not so easily subdued. He told the committee that their action was unwarranted, and that inside of forty-eight hours he would speak there and at the invitation of the women of the town. The women of Maryland had throughout helical the commonweal movement without fear, and he believed that in that very hamlet the women were the braver of the two sexes. He moved to appoint a vigilance committee and a large posse of citizens to be deputized by the sheriff and that they do duty during day and night. He said that in case the town officers were inadequate to quell any disturbance that the militia would be called out, and that the Governor of Maryland had promised that, if it was necessary.

It was moved that the attorneys of Biadensburg and Hyattsville, excepting Mr. Rogers and the state attorney, take the case in hand and take steps to have the posse deputized, so as to protect the two towns to-night. After this motion was made the meeting adjourned, and Sheriff Dove awore in about twenty-seven men to act with full power as deputies.

That the Coxeyites have become adepts in the art of making and breaking camp was shown in the quick move of yesterday. At 8 o'clock in the morning hardly an evidence of preparation could be seen, but long before the sun had curied himself up in his downy cot the camp and all its accessories had been carried over a warm and sandy road and repitched five miles further north-

had been carried over a warm and sandy east than the camp in the city.

Abou 10 'clock last night when a Time
reporter visited the new camp of the common
wealers, about a mile east of Hyattsville, a picturesque scene was witnessed. Eight flickering log fires lighted the camp, and the flickering log fires lighted the camp, and the weather-beaten tents appeared darker from the heavy shades of the fires. The new camp covers much more ground than any of those in the city, and it is gener-ously supplied with fresh drinking water. From a distance it looks a typical camper's

TRAIN ROBBERS CAPTURED.

Nat Sylvia and Felix Young Arrested

After an Exciting Chase EL RENO, O. T., May 12.-Nat Sylvia and Felix Young, members of the Dalton gang, who were implicated in the Pond Creek robberies of the Rock Island trains some time ago, were arrested this afternoon by United States Marshals Madison, Prater, and Eich-hoff, after an exciting chase. The despera-does were in the city all day trading and self-

does were in the city all day trading and selling horses at a public auction.

When their identity became known the streets miraculously illied with armed marshals. Watching for a supposedly good opportunity, the marshals made an attempt to arrest Young, who had become separated from Sylvia. Young sprang on his horse and dashed out of the city, but was caught and brought back. A running fire was kept up all the time the chase was on. No one was hurt. Sylvia was captured at the depot.

During the chase after Young two gamblers named Slim Jim Hathaway and Big Dan Donaldson attempted to assist the bandits in their escape. Hathaway fired at one of the marshals from the doorway of a saioon, but half a dozen Winchesters were turned on him and he surrendered. A great many strangers were in town, and it is thought a robbery was intended.

I have received through your committee your resolutions commending me for having advocated a single moral code, and the exaiting of womanhood, with an emblem teaching that courage, progress, and principle outweigh cowardice, prejudice, and "precedent." I beg to assure you that I earnestly believe all that I have said in relation to the advancement of woman and the establishment of equality of responsibility, and if anything I have said or done shall in any degree tend to break down any "precuded" or set aside any "precedent" that stands in the way of these, it will even be a source of gratification to me. For the very kind sayressien of approbation contained in these resolutions, I pray the league to accept my most sincere thanks. Very respectfully.

The health officer was shown a communication from Mr. W. B. Troy to the effect that the negro had taiked with Mr. Troy for over thirty minutes at Upper Mariboro last Friday and that it could be proved that the patient is not a victim of smallpox, but of poison oak.

Dr. Hammett said that he wished he could believe it to be a case of poisoning of that nature, but after a careful diagnosis by Dr. Nevins and himself he was compelled to say that it was smallpox in its worse form.

"Does it look as if it were a case of poison oak," inquired Dr. Hammett, "when it is known that Dr. Nevins has taken the precaution of ordering from me a complete suit of rubber to protect himself while attending the patient?
